BIAW Announces 2019 Excellence in Remodeling Award Winners

The Building Industry Association of Washington (BIAW) is proud to announce its 2019 Excellence in Remodeling (EIR) Award where we honored 27 winners and honorable mentions. The EIR awards program recognizes outstanding remodeling projects throughout the state. Categories included exterior, kitchen and bath updates, additions, historic renovations, aging in place upgrades, and entire home transformations, among others.

A judging panel painstakingly reviewed each project before making their selections, making sure they met a set list of high criteria. Some winners were recognized in multiple categories.

The awards were handed out during EIR's annual reception on June 19th at BIAW's Summer Board meeting in Yakima. BIAW's EIR awards are an annual opportunity for members to gain professional recognition for their outstanding work for clients during the year. The awards are open to all BIAW members who have completed a project that meets the requirements of an award category. See below for a list of EIR categories and 2019 winners.
